

Camp Waterschool

A FREE one-week global education program about water, sanitation, hygiene & the environment for Ages 10-13.

At National Great Rivers Research and Education Center

choose • July 16-20 (Mon-Fri) 8:30am-2pm
from: • July 23-27 (Mon-Fri) 8:30am-2pm

Students will learn about water in our bodies, the water cycle, drinking water filtration, water conservation, global water issues, watersheds and healthy streams. Activities include arts and crafts, science experiments and hands-on demonstrations and lessons from the Swarovski Waterschool global learning materials. Students will even have the opportunity to study a real stream and will reflect on their personal experiences with water and how they can make positive differences in their own watershed communities.

Lunch will be provided at NO COST.
