

## The National Great Rivers Research & Education Center

## Swarovski Waterschool Teacher Workshops

This program joins the team of global programs along major rivers of the world in Austria, Brazil, China, India, Thailand, and Uganda as the first of its kind in North America. We are looking for teachers who want to educate their students about water and river systems and engage them in a community action project. After the workshop, teachers are expected to facilitate community engagement activities and complete follow-up surveys.

### Details

#### **When:**

Workshop #1: June 25-26 (Mon.-Tues.)

Workshop #2: June 28-29 (Thurs.-Frid.)

**Registration deadline:** Sunday, June 17

**Where:** East Alton, IL

**Cost:** FREE!! (Mileage to attend the workshop may also be included. We cannot cover hotel costs.)

**Who:** Formal and nonformal educators\* from Illinois and Missouri who can commit to leading students in a community engagement project during the academic year.

\*Priority is given to educators teaching in districts immediately adjacent to the Mississippi or Illinois rivers in the following counties: *Illinois:* Calhoun, Greene, Jersey, Madison, or St. Clair; *Missouri:* St. Charles, St. Louis, or St. Louis City.

### *Educators will receive:*

- Lunch during both days of the workshop
- A free educator tool-kit
- Learning materials aligned to Common Core and Next-Generation Science Standards
- Access to funding and logistical support for stewardship projects
- Bus transportation and substitute teacher funding for Swarovski Waterschool related field trips (e.g. water treatment facility tours, lessons at NGRREC, etc.)
- Professional development hours (up to 12 hours)
- An opportunity to connect their class with students from another global Swarovski Waterschool program in Austria, Brazil, China, India, Thailand, or Uganda
